

Inter-County Community Council Internet Safety Policy

It is the policy of ICCC to prevent user access over its computer network to, or transmission of, inappropriate material via Internet, electronic mail, or other forms of direct electronic communications; prevent unauthorized access and other unlawful online activity; prevent unauthorized online disclosure, use, or dissemination of personal identification information of minors; and comply with the Children's Internet Protection Act [Pub. L. No. 106-554 and 47 USC 254(h)].

Definitions

Key terms are as defined in the Children's Internet Protection Act. *

Access to Inappropriate Material

To the extent practical, technology protection measures (or "Internet filters") shall be used to block or filter Internet, or other forms of electronic communications, access to inappropriate information.

Specifically, as required by the Children's Internet Protection Act, blocking shall be applied to visual depictions of material deemed obscene or child pornography, or to any material deemed harmful to minors.

Subject to staff supervision, technology protection measures may be disabled for adults or, in the case of minors, minimized only for bona fide research or other lawful purposes.

Inappropriate Network Usage

To the extent practical, steps shall be taken to promote the safety and security of users of the ICCC online computer network when using electronic mail, chat rooms, instant messaging, and other forms of direct electronic communications.

In locations where our classrooms are housed in the public school buildings, and access to the Internet is gained through school network systems, ICCC will document the school's Internet Safety Policy in addition to our own.

Specifically, as required by the Children's Internet Protection Act, prevention of inappropriate network usage includes: (a) unauthorized access, including so-called 'hacking,' and other unlawful activities; and (b) unauthorized disclosure, use, and dissemination of personal identification information regarding minors.

Education, Supervision and Monitoring

It shall be the responsibility of all members of the ICCC staff to educate, supervise and monitor appropriate usage of the online computer network and access to the Internet in accordance with this policy, the Children's Internet Protection Act, the Neighborhood Children's Internet Protection Act, and the Protecting Children in the 21st Century Act.

Procedures for the disabling or otherwise modifying any technology protection measures shall be the responsibility of ICCC or designated representatives.

The classroom teacher or designated representatives will secure parental permission and provide age-appropriate training for students who use the public schools Internet facilities. The training provided will be designed to promote ICCC's commitment to:

- A. The standards and acceptable use of Internet services as set forth in the ICCC and public school's Internet Safety Policy;
- B. Student safety with regard to:
 - a. safety on the Internet
 - b. appropriate behavior while online, on social networking Web sites, and in chat rooms; and
 - c. cyberbullying awareness and response
- C. Compliance with the E-rate requirements of the Children's Internet Protection Act ("CIPA").

Prior to receipt of this training, parents will acknowledge that they were notified of the policy, understood it, that their preschool child will receive training and supervision while online and will follow the provisions of the acceptable use policies.

Adoption

This Internet Safety Policy was adopted by the Inter-County Community Council Policy Council at a public meeting, following normal public notice, on May 5, 2014. This policy was updated & the update adopted by the ICCC Head Start Policy Council on May 5, 2014; and by the ICCC Board of Directors on May 19, 2014.

* CIPA definitions of terms:

MINOR. The term "minor" means any individual who has not attained the age of 17 years.

TECHNOLOGY PROTECTION MEASURE. The term "technology protection measure" means a specific technology that blocks or filters Internet access to visual depictions that are:

OBSCENE, as that term is defined in section 1460 of title 18, United States Code;

CHILD PORNOGRAPHY, as that term is defined in section 2256 of title 18, United States Code

HARMFUL TO MINORS. The term "harmful to minors" means any picture, image, graphic image file, or other visual depiction that:

1. Taken as a whole and with respect to minors, appeals to a prurient interest in nudity, sex, or excretion;
2. Depicts, describes, or represents, in a patently offensive way with respect to what is suitable for minors, an actual or simulated sexual act or sexual contact, actual or simulated normal or perverted sexual acts, or a lewd exhibition of the genitals; and
3. Taken as a whole, lacks serious literary, artistic, political, or scientific value as to minors.

SEXUAL ACT; SEXUAL CONTACT. The terms "sexual act" and "sexual contact" have the meanings given such terms in section 2246 of title 18, United States Code.
